Full-Stack Engineer with experience shipping production features in Next.js/React apps and building full-stack SaaS products with TypeScript, Node.js, Prisma, PostgreSQL, and Stripe. Strong in frontend architecture, API integration, and translating product requirements into polished user experiences.

SKILLS

- **Frontend:** React, Next.js, TypeScript, Tailwind CSS, TanStack, shadcn/ui, GSAP
 - **Backend:** Node.js, Express, tRPC, Prisma, MongoDB, PostgreSQL, REST APIs, JWT, Java, Python, Stripe, Auth0
 - **Cloud/DevOps:** AWS (EC2, S3, CloudFront), Docker, GitHub Actions, PM2, CI/CD, Vercel, Nginx
 - **Testing/Tools:** Jest, Storybook, Postman, Jira, Linear, Git, Grafana, GitHub Copilot, Codex, AI-assisted development workflows
-

EXPERIENCE

Clickk | July 2025 - Present

Full-Stack Engineer.

- Resolved **~4–5 production bugs/week**, improving stability and reducing regressions through UI and integration fixes.
- Shipped **6+ core features** in a Next.js/React app, partnering with Rust backend engineers on API contracts and end-to-end data flow.
- Refactored legacy code and enforced **architectural standards** to improve maintainability, data consistency, and adherence to model schemas.
- Implemented **pagination, filtering, and sorting** across multiple product areas to **improve usability and data navigation**.
- Built and integrated **3 AI-powered features**: an image generation tool for gallery creation, an offer suggestion feature to assist content setup, and a lead insight feature that provided users with generated summaries and data on captured leads.
- Integrated **subscription tier gating** to support differentiated experiences for basic and premium users.
- Refactored backend code to **improve readability, separation of concerns, and long-term maintainability**.
- Built a **live interaction history feature** that allowed users to review fan interaction activity.

LeapLogger | June 2025 - Present

Full-Stack Engineer (Independent SaaS MVP).

- Built a full-stack SaaS MVP from the ground up as a solo developer using Next.js, TypeScript, Prisma, PostgreSQL, and Java/Spring Boot.
- Implemented Stripe subscription billing across **3 pricing tiers**, including checkout, recurring payments, and account access controls.
- Integrated **7+ services and libraries** including Brevo, Cloudflare, Cloudflare Turnstile, Redis, Tiptap, and LanguageTool to support email delivery, security, editing, and performance.
- Built and shipped **6+ core product workflows** across authentication, subscriptions, note editing, grammar assistance, and account experiences, bringing the platform to beta after 9 months of development.

CommuniTee Golf Chat Extension Extern - [CommuniTee Golf](#) | April 2025 - June 2025

Developed a Chrome browser extension for real-time chat in CommuniTee Golf.

- Developed UI components in React utilizing TypeScript, Vite, and Tailwind CSS, integrating the **Chrome Extensions API**.
- Conducted peer code reviews on GitHub to maintain code quality, share feedback, and uphold best practices.
- Built and documented components in **Storybook JS** using mock data and wiring in backend endpoints when they become available.
- Translated Figma designs into polished, **responsive UIs** with smooth interactions and **accessibility best practices**.
- Presented product **demos** to clients, communicating technical features in non-technical terms to clearly demonstrate functionality, usage, and user experience.

STL Rock School | November 2018 - June 2025

Music Teacher - Sound Engineer

- Taught and mentored 35+ students, adapting lessons to diverse learning styles and skill levels to foster engagement and growth.
 - Built strong communication, leadership, and client-facing skills through instruction, feedback, and live performance support.
-

EDUCATION

TripleTen Full-Stack Certification - November 2024 - **10-month full-stack apprenticeship.**
